## Step 1. Unpack the Box

1x

M10 Cold Air Diffuser Atomizer

1x Power Adapter

1x Plastic Tube

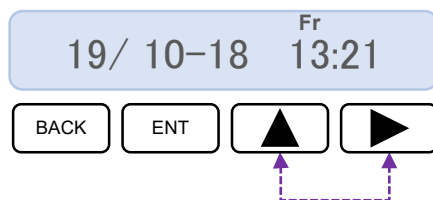

1x Push-in Fitting

## Step 2. Set Date and Time

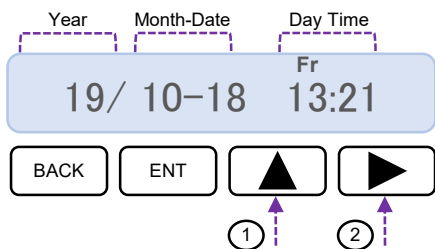

a) Connect the power adapter with the diffuser

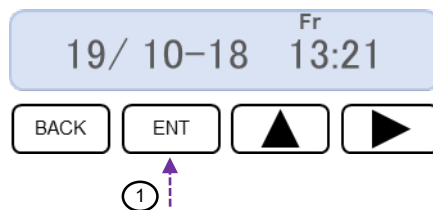

b) Press and together. The screen will enter program mode.

c) Press to adjust Year then to adjust date and time.

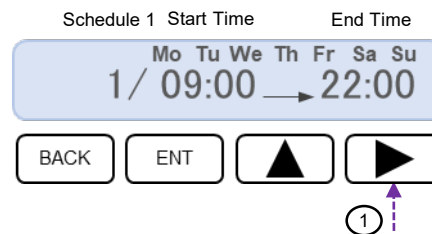

d) Press when Year, Month, Date, and Time are set.

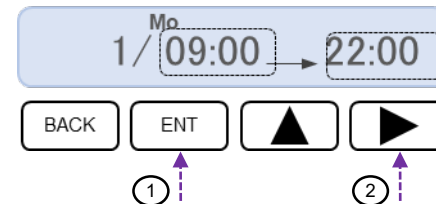

## Step 3. Set Work Schedule

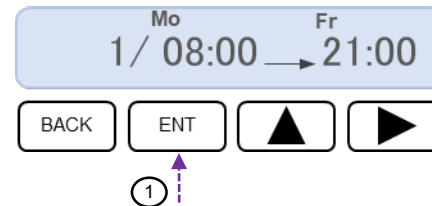

a) Press to enter work schedule programming mode.

b) Keep pressing until 'Mo' is displayed and then press to set 'Mo' start and end work time.

c) After adjusting the work schedule press to confirm 'Mo' and the default week settings.

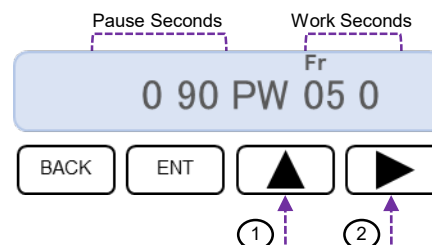

d) Press to browse the remaining days, adjust start/stop time for each day as needed.

- ❖ Monday is used as the default start/stop work time for the remaining week days. Always set Monday first and then the exceptions to Monday, this allows for more streamlined programming.
- ❖ To program more than one schedule per day, please select schedule #2, 3, or 4 from step a) above and set the desired start/end time for each day.

## Step 4. Set Intensity Level

a) Press to enter intensity programming mode.

a) Set pause and work seconds and then press to confirm.
